

## **LIKE LIGHTNING**

**What if I am supposed to be something more than I'm selling  
Wiped away an ocean of dreams in the tears I've been shedding  
What if I kiss my life goodbye long before I die?  
Better bloom where I'm planted and soon, I've been buried but I'll survive**

**Here in the dark, a storm is brewing, in my heart**

**When the night falls I rise  
I come alive, terrorising the night  
Takes something like a lightning strike to bring me back to life**

**Born or made even thrust upon they say greatness is fleeting  
Toe to toe against the hands of time even heroes are beaten  
All you need is one sweet moment own it and walk away  
Let em say I came and I saw but I conquered a little late**

**Deep in the night, a thunder rumbles round my mind**

**When the night falls I rise  
I come alive, terrorising the night  
Takes something like a lightning strike to bring me back to life**

**I come alive, terrorising the night  
Takes something like a lightning strike to bring me back to life  
Brings me back to life  
Brings me back to life  
Brings me back to life**
