TRACK: 'AGAIN'

RELEASE: FEBRUARY 10th 2023

LIVE DATE: Camden Assembly, 16th FEB 2023

DeVere are set to release their debut single '**Again**' via all streaming services on 10th February 2023

The track is a hard hitting, guitar shredding, vocal-masterclass of all that is pure, raw and exciting about rock n roll. The adrenaline-fueled track will surely be a live favourite of this electrifying new band.

Lead vocalist Sammy Cassidy states:

"Again is a song about addiction and the cycle of self destruction that accompanies it. Drinking yourself into oblivion and promising yourself never again...Until the next time".

DeVere have sold out multiple London headline shows and played to thousands at Download Festival generating an under the radar buzz amongst their new found loyal following – all without having yet released any music – until now!

Produced by the band's Brit nominated bassist Will Vaughan (**Dorian Electra, James Arthur, Oliver Tree**), this underground band bring you hard rock elegance with their first offering - 'Again'.
